	Page
INTRODUCTION	(iii)
 PART I: PLANNING SCIENTIFIC OBSERVATIONS	
Section 1: Text of the CCAMLR Scheme of International Scientific Observation	1
Section 2: List of Current Research Priorities Identified by the Scientific Committee for Conducting Scientific Observations on Commercial Fishing Vessels.....	7
Section 3: Recording and Reporting Results of Scientific Observations on Commercial Fishing Vessels.....	9
 PART II: GUIDELINES FOR SCIENTIFIC OBSERVERS	
Section 1: Standard Measurements for Krill, Fish, Crabs and Squid	13
Section 2: Assessment of Krill Size Composition	16
Section 3: Krill Feeding Observations.....	16
Section 4: Sex and Maturity Stages of Krill.....	17
Section 5: Maturity Stages of Antarctic Fish.....	19
Section 6: Maturity Stages of Stone Crabs, <i>Paralomis</i> spp.	23
Section 7: Maturity Stages of Squid	24
Section 8: Removal and Storage of Otoliths	25
Section 9: Collection and Storage of Scales	28
Section 10: Sex and Relative Age Determination of Stone Crabs, <i>Paralomis</i> spp.	29
Section 11: Observation of By-catch of Fish in Krill Catches	30
Section 12: Observations of Interactions of Seabirds and Marine Mammals with Fishing Operations	31

Section 13: Recording Encounters with Vulnerable Marine Ecosystems	35
Section 14: Species Identification Guides	
Identification Guide to <i>Dissostichus</i> spp.	37
CCAMLR Species Identification Sheets	41

PART III:

REFERENCE MATERIAL

Section 1: Maps of the CAMLR Convention Area	51
Section 2: World Time Zones	54
Section 3: Beaufort Scale of Wind Force	56
Definition of Sea Height and Swell.....	56
Section 4: Longline Designs used in the CAMLR Convention Area	58
Section 5: Rules for Access and Use of CCAMLR Data	60
Section 6: Selection of CCAMLR Database Codes	
Taxonomic Codes	62
Fishing Gear Codes	63
Catch Processing Codes.....	63
Length – Type of Measurement Codes	63
Section 7: References	65
