ARTICLE XVIII.

SUPPLY OF INFORMATION

1. The Contracting Parties shall, to the extent practicable, provide annually to the Commission and to the Scientific Committee such statistical, biological or other data and information as the Commission and Scientific Committee may require in the exercise of their functions.
2. The Contracting Parties shall provide, on an annual basis, information on their future programmes and plans for harvesting operations by their nationals, including number of vessels, quantity of any species intended to be harvested, marine areas involved and any other data that may be useful under this Convention.
3. The Contracting Parties shall provide, in the manner and at such intervals as may be prescribed, details of harvesting operations by their nationals and vessels and areas of operation, so as to enable catch and effort statistics to be compiled.
4. As in paragraph 3 of the Canberra version.
5. As in paragraph 4 of the Canberra version.
