

Conservation Measure 24-05 (2020)
Fishing for research purposes pursuant to Conservation Measure 24-01

Species	all
Area	all
Season	2020/21
Gear	all

The Commission,

Desiring to increase clarity, traceability and transparency related to the details of fishing for research purposes,

Welcoming the work of the Commission towards simplifying and harmonising the regulatory framework governing CCAMLR fisheries,

Recognising the need to increase both transparency and documentation in relation to fishing for research purposes that has been authorised by the Commission,

hereby adopts the following conservation measure in accordance with Conservation Measure 24-01, paragraph 3(d):

1. For the 2020/21 season, the following research activities authorised each season pursuant to Conservation Measure 24-01, paragraph 3, or current multi-year research activities previously approved by the Commission, shall be conducted in accordance with the Research Plans endorsed by the Commission and the requirements of Conservation Measure 24-01 and this conservation measure (Table 1).
2. Unless otherwise specified in Conservation Measure 24-01 or column (e) of the table in paragraph 1 above, all relevant CCAMLR conservation measures apply to activities carried out under this conservation measure, including requirements related to mesh size, gear type, closed areas, size limits, incidental mortality, environmental protection, by-catch, compliance and data reporting.

Season

3. For the purposes of the definition of a season in this conservation measure, Conservation Measure 32-01 applies.

Table 1: Research activities pursuant to Conservation Measure 24-01, paragraph 3, in 2020/21.

(a) Area/ subarea/ division	(b) Member(s)	(c) Target species or taxa	(d) Catch limit ¹ (tonnes) or effort limit (sets/hauls)	(e) Specific conservation measure exemptions necessary for research	(f) Scientific Committee paragraphs
48.1	Ukraine	<i>Dissostichus mawsoni</i>	43 tonnes/29 sets ²	None	SC-CAMLR-39, 4.2 to 4.4
58.4.4b	Japan and France	<i>Dissostichus eleginoides</i>	32 tonnes ³	None	SC-CAMLR-39, 4.5
88.1	New Zealand	<i>Dissostichus mawsoni</i>	65 tonnes/(55 bottom sets and 10 vertical sets)	CM 31-02	SC-CAMLR-39, 4.5

¹ If multiple Members are involved in a Research Plan, they will indicate the intended distribution of the catch limit, where specified, between them.

² The by-catch limit for *Macrourus* spp. for this research plan is 7 tonnes.

³ The catch limits in research blocks 5844b_1 and 5844b_2 shall respectively be 18 and 14 tonnes.
