

RESOLUTION 2/IV

Protection of *Notothenia rossii* in the Peninsula Area (Statistical Subarea 48.1)
and around South Orkneys (Statistical Subarea 48.2)

The Commission recognised that it was important that fishing mortality on *N. rossii* should as a precautionary measure be minimised. To this end the Commission requests all parties to the

Convention to keep the catch of *N. rossii* in the Peninsular Area (Statistical Subarea 48.1), and around South Orkneys (Statistical Subarea 48.2), in the season 1985/86 to the lowest possible level.

To this end the Commission requests all parties to the Convention in the 1985/86 season:

- (1) To refrain from a directed fishery for *N. rossii*;
- (2) To ensure that by-catch of *N. rossii* in directed fishing for other species be avoided.
